

August 24, 2020

Meeting via Zoom @ 6:30 pm
See Schedule Below

Windermere Rotary Club

Weekly Roundabout

Quote of the Week: “Don’t worry about the world coming to an end today. It is already tomorrow in Australia.”

Charles Schultz, Illustrator

PROGRAM OF THE WEEK

Brian A. Wetzel

Chief Operating Officer

Orlando Health ER & Medical Pavilion

Horizon West

The 4-Way Test *of things we do and say:*

1. Is it the **TRUTH**?
2. Is it **FAIR** to all concerned?
3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
4. Will it be **BENEFICIAL** to all concerned?

Brian oversees the Horizon West campus' ambulatory care facilities and leads the site's future growth. He will serve as chief operations officer (COO) of the new Orlando Health Horizon West Hospital, scheduled to open in early 2021.

Over two decades, Brian has held leadership roles with Orlando Health, most recently serving as assistant vice president and COO of Orlando Health UF Health Cancer Center. He also served as a corporate director for the Orlando Health Heart Institute and, in 2013, accepted the role of administrative project lead for the \$320 million renovation and redesign project for Orlando Health Orlando Regional Medical Center.

Brian began his Orlando Health career at Orlando Health St. Cloud Hospital, followed by more than a decade at Orlando Health Dr. P. Phillips Hospital, where he led operational and expansion activities. Brian earned a bachelor's degree from Florida Southern College (Lakeland) and a master's in health services administration from the University of St. Francis (Chicago). He is a board member for the Orange County Regional History Center and the American Cancer Society, and an executive committee member of the Leukemia & Lymphoma Society.

MESSAGE FROM THE PRESIDENT

Greetings Windermere Rotary Family,

It is my pleasure to serve as your 2020-2021 President of the Rotary Club of Windermere.

I hope these last two weeks have been good ones for everyone. I don't know about you, but in the Hairston household so much of the same makes it hard to keep the days of the week straight much less the date of the month! I actually know what day today happens to be...it's the 22nd of August and it is my 39th birthday! RIGHT!!!

I want to encourage ever member of our club to join our meeting Monday evening at 6:30 PM. Besides the interesting and timely presentation by Brian Wetzel the Chief of Operating Officer for Orlando Health's Horizon West Hospital, we have several other club items that require input and/or a vote by the membership. Don't miss this bi-monthly opportunity to "see" your fellow members while enjoying an adult beverage of your choice. I think I can speak for the group of members who have joined the zoom meetings by saying we miss every one of you not online with us.

Also, earlier I talked about my desire to not require dues for the months that we are not meeting face-to-face. Unfortunately, we were required by RI to pay our bi-annual dues in July. The Board voted to bill each member \$70 to cover the RI dues and operating expenses. If you have not paid this quarter's bill please make every effort to do so. As a club, we want to take care of our own. If you are in a situation that makes this difficult, we are here to help. Please contact our treasurer, Phil Leopold or Norma Sutton they have been designated by the board to confidentially assist our members during these unprecedented difficult times. It is one of my personal goal as your president to retain every member of this club. With that being said, I look forward to "seeing" you Monday evening.

Yours in Rotary Service Karen

NEWS

President Trump announced on Sunday that the Food and Drug Administration has issued emergency use authorization to treat hospitalized COVID-19 patients with convalescent plasma from people who have recovered from the virus.

The emergency use authorization means that the convalescent plasma "may be effective in treating COVID-19 and that the known and potential benefits of the product outweigh the known and potential risks," [according to the FDA](#).

From OneBlood: Convalescent plasma (CPP) is plasma collected from people who have recovered from the coronavirus. People who recover from coronavirus infection have developed antibodies to the virus that remain in the plasma portion of their blood. Transfusing the plasma that contains the antibodies into a person still fighting the virus can provide a boost to the patient's immune system and potentially help them recover.

The experimental treatment is approved by the FDA to be used on an emergency basis and is called "COVID-19 convalescent plasma." Critically ill patients who meet the FDA criteria to receive this therapy can be treated for life-threatening COVID-19.

OUR ROTARY FAMILY

Our Texas granddaughters are still here enjoying the summer while our Tennessee grandsons are back in school full time.

Annalise and Anneke Bodine with cousin Matthew Bodine

Garret and Elliot Sutton
