Global Population 7,900,000,000 est. cases 3.17% of population

18 721 904      Currently Infected  
76 397          Serious or Critical

Africa 8 608 402 cases 220 075 deaths

Americas 95 377 675 cases 2 332 593 deaths

US 47 337 132 cases 775 232 deaths 1.63 % death rate

Florida 3 706 356 cases 60 197 deaths 1.62 % death rate

Orange Co. 228 752 cases 2185 deaths 0.955 % death rate

### LATEST NEWS

**Florida reported 1,610 COVID-19 cases and no new deaths on Friday, according to Saturday's report to the Centers for Disease Control and Prevention, based on Miami Herald calculations of CDC data. The Florida Department of Health will most likely add more deaths to Friday's total, increasing it from zero. The state has done this in the past when it has added cases and deaths to previous days during the pandemic.**

## Vaccination Update as of November 6, 2021

**3 118 450 521** fully vaccinated or **40 %** Worldwide

**192 396 375** fully vaccinated or **58.4 %** US population

**12 904 395** fully vaccinated or **60 %** Florida population

**862 993** fully vaccinated or **61.9 %** Orange County

### **Latest News**

**When will life return to normal?**

While the best vaccines are highly effective at preventing hospitalization and death, it takes a coordinated campaign to stop a pandemic. Infectious-disease experts have said that vaccinating 70% to 85% of the U.S. population would enable a return to normalcy, but boosters may be required to keep the disease in check.

On a global scale, that's a daunting level of vaccination. At the current pace of 9.05 million people getting their first shots each day, the goal of halting the pandemic remains elusive. Manufacturing capacity, however, is increasing, thanks to new vaccines and added capacity from existing drugmakers.

**The Path to Immunity Around the World**

Globally, the latest vaccination rate is **30,362,080 doses** per day, which includes **9,046,039 people** people getting their first shot. At this pace, it will take another **6 months** until **75%** of the population has received at least one dose.

## **50 Things You Need to Know About Rotary**

### **21 - OPPORTUNITIES FOR FELLOWSHIP**

Most Rotarians are successful professional and business executives because they hear opportunities knock and take advantage of them. Once a week the opportunity for Rotary fellowship occurs at each club meeting, but not all members hear it knocking.

The weekly club meeting is a special privilege of Rotary membership. It provides the occasion to visit with fellow members, to meet visitors you have not known before, and to share your personal friendship with other members.

Rotary clubs which have a reputation of being "friendly clubs" usually follow a few simple steps: First, members are encouraged to sit in a different seat or at a different table each week. Second, Rotarians are urged to sit with a member they may not know as well as their long-time personal friends. Third, members invite new members or visitors to join their table just by saying: "Come join us, we have an empty chair at this table."

Fourth, members share the conversation around the table rather than merely eating in silence or talking privately to the person next to them. Fifth, Rotarians make a special point of trying to get acquainted with all members of the club by seeking out those they may not know.

When Rotarians follow these five easy steps, an entirely new opportunity for fellowship knocks each week. Soon Rotarians realize that warm and personal friendship is the cornerstone of every great Rotary club.
