Meeting in the TownHall @ 6:54
& via Zoom except 4th Monday night social

Windermere Rotary Club

Weekly Roundabout

Quote of the Week: *“Beer, if drank with moderation, softens the temper, cheers the spirit and promotes health.”*

Thomas Jefferson

Today’s Program

Andy McGhee

Windermere Brewing Company

The 4-Way Test

of things we do and say:

1. Is it the **TRUTH**?
2. Is it **FAIR** to all concerned?
3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
4. Will it be **BENEFICIAL** to all concerned?

Sharing and talking about the uniqueness of amazing craft beer and the almost countless varieties in styles has been our passion from day one. One night, with a great group of friends and a few solid beers, including one that our founders created, we came to an almost immediate decision that we need to share our passion on a larger scale. We started with brewing many different styles and some odd experiments (yeah we put garlic in a beer). We started with sharing with friends and family, and eventually participating in local events and craft beer festivals handing out free samples and gauging feedback. While listening to what was working and also what wasn't up to standard (yeah we make mistakes too), we moved forward with our plans to build a production brewery and taproom right in the heart of Windermere, Florida. We are extremely grateful for the support and feedback we have received on our journey and are more than stoked to share our love of great beer with everyone who walks into our brewery.

MESSAGE FROM OUR PRESIDENT

Greetings Windermere Rotary Family

It is my pleasure to serve as your 2022-2023 President.

When you read this, we'll be heading home from our 36th annual family reunion in Bemidji, Minnesota. Hope you all are having a great summer.

At the July board meeting the budget for our service activities was approved. The budgeted spending totals \$22,600 which is the amount of our fundraising activities last year. For Youth Services it includes things such as the 4 Way Test events with the schools, scholarships, RYLA, and the Fun Day Picnic for the folks at Edgewood. Amounts are also budgeted for Community Service, International Service, Vocational Service, and the Veterans Fund. The detailed budget will be posted in our files at DACdb. If you would like a printed copy, please just ask.

Enjoy Tuesday's meeting. And remember that on August 16 our meeting will be at Orlando Health Central in the Auxiliary Room on the first floor. Frank will be asking for a headcount so they can prepare accordingly for the provided catered breakfast.

Yours in Rotary Service - Jim

"Tell me and I forget. Teach me and I remember. Involve me and I learn."

Benjamin Franklin

Covid-19 Situation in numbers (by WHO Region)

Total as of August 8, 2022

Global 589 303 819 cases 6 436 397 deaths 1.10 % death rate

Global Population 7,900,000,000 est. cases 7.35 % of population

22 339 338 Currently Infected 99.8% Mild
43 722 Serious or Critical 0.2% Serious

Africa 12 547 258 cases 257 009 deaths

Americas 174 149 610 cases 2 826 972 deaths

Europe 217 240 684 cases 1 883 383 deaths

Asia 173 723 313 cases 1 451 565 deaths

US 93 910 150 cases 1 058 738 deaths 1.13 % death rate

Florida 6 898 91 cases 78 047 deaths 1.13 % death rate

Orange Co. 434 463 cases 2 961 deaths 0.67 % death rate

LATEST NEWS (Harvard Press)

Mounting evidence suggests that millions of Americans have gotten COVID without knowing it because they had no symptoms or mild cases. Some people have avoided it altogether, perhaps because of genetic or immune system traits.

Both types of cases are important to public health, according to experts. “It’s definitely true that some people have had COVID and don’t realize it,” said [Stephen Kissler](#), research fellow in the [Department of Immunology and Infectious Diseases](#). “It is potentially good news if there’s more immunity in the population than we realize.” He added that knowing a person’s medical history and genetics “may be able to help identify people who are at especially high risk from infection. That knowledge could help those people better shield themselves from infection and get quicker access to treatment and vaccines, if necessary.”

Vaccination Update as of August 6, 2022

4 880 663 027 fully vaccinated or **62.4 %** Worldwide

223 222 467 fully vaccinated or **67.7 %** US population

14 592 869 fully vaccinated or **68.8 %** Florida population

982 681 fully vaccinated or **74.38 %** Orange County

Latest News (CNET)

In an effort to combat the spread of COVID-19, health officials are preparing for a fall and winter vaccine rollout with omicron-specific boosters to target a more up-to-date version of the virus. The rollout could start as early as September.

The US Food and Drug Administration last month made a recommendation that vaccine manufacturers should make a booster dose of COVID-19 vaccine that targets the BA.4 and BA.5 subvariants of the omicron variant. BA.5 now makes up the majority of COVID-19 cases in the US and is leading another summer surge of COVID-19 cases.

The pressure on the timeline to come up with a new vaccine comes partly from talk about expanding the eligibility of who can get a second booster of the currently available vaccines (only adults 50 and older and younger immunocompromised people are eligible for a second booster, and the eligibility isn't likely to be extended until there's a new booster, The New York Times reports). The pressure also extends to the vaccine companies, specifically Moderna and Pfizer, which need to make sure their vaccines are ready before being authorized by the FDA and endorsed by the US Centers for Disease Control and Prevention.
