

**November 21, 2022**

Meeting in the TownHall @ 6:54  
& via Zoom except 4<sup>th</sup> Monday night social

# Windermere Rotary Club

## Weekly Roundabout

**Quote of the Week: “We should certainly count our blessings, but we should also make our blessings count.”**

*Neal Maxwell*

**The 4-Way Test**  
*of things we do and say:*

1. Is it the **TRUTH**?
2. Is it **FAIR** to all concerned?
3. Will it build **GOODWILL** and **BETTER FRIENDSHIPS**?
4. Will it be **BENEFICIAL** to all concerned?

### Today’s Program

**MONDAY NIGHT SOCIAL!**

**Come Be Social!**

5078 Dr. Phillips Blvd.  
Orlando, FL 32819  
[407-776-9991](tel:407-776-9991)

## ***MESSAGE FROM OUR PRESIDENT***

### **Greetings Windermere Rotary Family**

*It is my pleasure to serve as your 2022-2023 President.*

Thanks to all who brought food and helped serve dinner at the West Orange Christian Service Center last night. It's great to be back and contributing to the District's million meal challenge.

Special thanks to Todd Bednarek for preparing 60 pounds of delicious chicken legs for the dinner. A very appreciative group of folks enjoyed a nice dinner with the chicken, mashed potatoes and gravy, salads, baked beans, fruit, bread and butter and dessert. I look forward to the next time on Sunday December 18<sup>th</sup>. Please mark that date on your calendar.

Hope to see you tonight at our social at Burntwood Tavern. Have a Happy Thanksgiving!!

***Yours in Rotary Service - Jim***

***“I never look at the masses as my responsibility. I look at the individual. I can love only one person at a time. I can feed only one person at a time. Just one, one, one.”***

***Mother Teresa***

## Covid-19 Situation in numbers (by WHO Region)

### Total as of November 20, 2022

Global 642 997 207 cases 6 625 809 deaths 1.05 % death rate

Global Population 7,973,000,000 est. cases ~ 8 % of population

14 215 830	Currently Infected	99.7 % Mild
36 153	Serious or Critical	0.3 % Serious

Africa 12 695 808 cases 257 969 deaths

Americas 183 457 803 cases 2 895 123 deaths

Europe 236 809 630 cases 1 955 914 deaths

Asia 197 189 188 cases 1 494 766 deaths

Oceania 12 844 057 cases 21 997 deaths

US 100 162 519 cases 1 102 505 deaths 1.10 % death rate

Florida 7 227 523 cases 82 875 deaths 1.15 % death rate

Orange Co. 456 614 cases 3 165 deaths 0.69 % death rate

### LATEST NEWS (CNBC)

A variant of the flu that hits kids and seniors worse than other strains of the virus is dominant in the U.S. right now, setting the country up for a potentially bad flu season.

Public health labs have detected influenza A(H3N2) in 76% of the more than 3,500 respiratory samples that have tested positive for the flu and were analyzed for the virus subtype, according to a surveillance report published Friday by the Centers for Disease Control and Prevention.

The H3N2 variant has been associated with more severe flu seasons for children and the elderly in the past, according to Dr. Jose Romero, director the CDC's National Center for Immunization and Respiratory Disease.

## Vaccination Update as of November 19, 2022

**5 012 914 658** fully vaccinated or **64.5 %** Worldwide

**228 154 832** fully vaccinated or **69.2 %** US population

**14 803 839** fully vaccinated or **68 %** Florida population

**997 049** fully vaccinated or **75.47 %** Orange County

### **Latest News (Bloomberg)**

#### **The Legacy of Omicron**

The Covid-19 vaccine has changed the course of the pandemic. In total, 162 doses have been given for every 100 people around the world. In countries that reached the highest levels of vaccination, [death rates plummeted](#).

Amid this progress, the world was caught off guard when the omicron variant rose to prominence in late 2021. Omicron proved somewhat less severe than previous variants, but it spread much faster.

Millions of vaccinated people have gotten sick from the omicron strain, but the shots served their most important function—preventing severe illness. During the omicron wave, vaccination with a booster reduced the chance of [hospitalization and death](#) by [more than 90%](#). Sudden spikes of cases from the fast-moving variant have pressured health systems, but the outlook for the average Covid patient has improved significantly.

#### **“Pandemic of the Unvaccinated”**

In early 2021, Israel was first to show that vaccines were bending the curve of Covid infections. The country led the world in early vaccinations, and cases declined rapidly. A similar pattern of vaccination and recovery was repeated across dozens of countries.

New, more transmissible variants caused renewed outbreaks, but in these subsequent waves, unvaccinated patients faced far higher risk of hospitalization and death. This disparity in outcomes led health officials to dub the current phase of Covid a “pandemic of the unvaccinated.”

Since the start of the global inoculation campaign, countries have experienced unequal access to vaccines and varying degrees of success in getting shots into people’s arms.
